Then, user will be able to choose the type of mother sheep.

Selepas itu, pengguna boleh pilih jenis induk yang diinginkan untuk pakej tersebut.

After user has selected a package, it will be shown under the Packages tab. However, he has to wait for admin approval before being able to pay for the package based on the availability of sheep. By default, admin will receive a notification to approve the package, but he/she can also click the Alert Admin button to send additional notification. Only then user will be able to pay for the package.

Selepas pengguna selesai memilih pakej ternakan dan jenis induk, pakej tersebut akan dipaparkan di bahagian Packages. Walaubagaimanapun, mereka patut tunggu admin untuk menerima pesanan tersebut selepas menyemak induk. Hanya selepas itu pengguna akan dibenarkan untuk buat bayaran.

This is the admin screen. He will receive a notification first under Notification tab with user ID, package details, and so on. Then he has to navigate to Packages tab, find the user under Users screen, and then find their package based on package ID from the notification, and click Edit. Inside new screen, admin has to change package status to Approved.

Paparan ini menunjukkan app Bebiri Hostel dari akaun admin. Admin akan menerima notifikasi dalam skrin Notification dengan user ID, jenis pakej, dan lain-lain. Selepas itu, admin patut ke skrin Packages, cari pengguna khusus dari notifikasi beserta dengan pakej yang diinginkan (semak package ID) dan tekan Edit. Dalam skin baharu, admin perlu tukar package status ke Approved.

#### 6:31 \land 🕅

After admin has approved the package, user will see the amount they have to pay and they need to make payment.

Selepas admin sahkan/approve pakej, pengguna akan lihat jumlah yang mereka patut bayar untuk melanggan pakej mereka.

After payment is complete, admin will receive a notification and will assign a mother sheep for the package by inputting the Mother Sheep ID.

Selepas bayaran berjaya dilakukan, admin akan menerima notifikasi dan akan tambah induk (mother sheep) dalam ke dalam pakej tersebut dengan menaip ID induk tersebut.

Insurance is only available for Advance and Advance Plus package. By default it is turned on. Users can turn it off/on whenever they want but it is not advised to do so, so do make a decision and stick with it. In the View screen, admin will be able to see Last Paid Insurance Date, and with this information admin will be able to calculate if current package is protected under insurance (3 months after Last Paid Insurance Date for Advance and 6 months for Advance Plus).

Insurans ialah hanya untuk pakej Advance dan Advance Plus sahaja. Butang insurans akan dihidupkan dahulu. Pengguna boleh hidupkan/matikan insurans bila-bila sahaja tapi ianya tidak disyorkan oleh pihak kami. Jadi, pengguna disyorkan untuk memilih insurans (kalau boleh hidupkan insurans) dan jangan matikan/hidupkan butang tersebut berkali-kali. Dalam skrin View, admin boleh lihat Last Paid Insurance Date atau tarikh akhir insurans dibayar oleh penguna dan dengan tarikh tersebut boleh kira jika pakej tersebut masih lagi dilindungi dengan insurans (3 bulan selepas tarikh akhir bayaran untuk Advance dan 6 bulan untuk Advance Plus).

### ADMN REMNDER

When a sheep dies, or gets slaughtered, change the status of the sheep to appropriate status. However, when a sheep is sold back to Bebiri Hostel, change the status of the sheep to sold, physically change the tag of that sheep and create a new sheep in the app.

Apabila seekor biri-biri mati atau disembelih, sila tukar status biri-biri tersebut kepada status yang betul. Walaubagaimanapun, apabila seekor biri-biri dijual semula pada Bebiri Hostel, sila tukar status biri-biri tersebut kepada dijual, tukar tag pada telinga biri-biri dan cipta biri-biri baru dalam aplikasi Bebiri Hostel dengan ID yang baru.
